December 29, 2020

San Diego City Hall
 202 C Street
 San Diego, CA 92101

Dear Honorable Mayor Gloria and City Councilmembers,

On behalf of the signed organizations, we urge you to secure at least a one year extension of the current electric and gas Franchise Agreements so we can choose the best utility option for San Diego to meet our climate, community and equity goals.

It is clear our current energy Franchise Agreements are a disservice to the City and ratepayers; and our current energy provider, SDG&E, has a track record of working against the City and community. To this point, the City has brought multiple lawsuits against SDG&E for their breach of the current Franchise Agreements after SDG&E tried to force taxpayers to pay their legally-obligated costs.

After the last bidding process failed, with only unresponsive solicited bids from SDG&E, a one-year extension is necessary to decide next steps, which should include:

1. Robust and transparent public process that engages the community
2. Reevaluation of the financial value of the City's electric and gas systems, and eminent domain options
3. Detailed evaluation of public power options for the City to consider as alternatives to an investor-owned utility provider
4. Creation of a climate equity fund
5. Expanded pandemic related relief for ratepayers during the extension period
6. Continued benefits, protections, standards and wages for utility workers in any scenario

With new leadership at City Hall, it is critical that the Council drive this conversation on behalf of ratepayers and the community. Per City Charter section 103.1: "the Council shall have power to provide reasonable terms and conditions under which such businesses may be carried on and conducted within The City of San Diego." We recommend the agreements go back to the Environment Committee, which has the responsibility for driving this process.

Given the poor performance and hostility from SDG&E, these once in a generation agreements must not be hastily negotiated and signed in backroom deals. The Council cannot sign off on more bad real estate contracts, like 101 Ash. Instead, the public deserves a transparent and open process to secure our local, clean energy future and help meet our climate, community and equity goals. Thank you.
